

## Revolution Limited Travel Program Philosophy and Mission Statement

### Mission Statement

The purpose of the Revolution Limited travel program is to offer a cost effective alternative to travel hockey. The Revolution gives all players the opportunity to compete in a safe and fair environment with an emphasis on skill development, team play and a commitment to grow your game to the next level.

### Philosophy

We believe that limited travel offers a balance to the player(s) that perhaps began playing ice hockey as recreational or have other sports that requires time and commitment. We recognize that limited travel hockey is an enjoyable alternative for those kids.

### Results

In the end, our athletes will leave with a better understanding of how to compete at a high level of hockey. They will have been educated on the importance of discipline, teamwork, and the importance of academics. Further, our athletes will walk away with a more refined idea of how to enjoy and learn the game and that hockey is a team (not an individual) sport.

The Coaching staff will be working with coach Tom Coyne to ensure both player and coaching education programs.
